Experience

from 09/2018 **Freelance Software Developer**, *beltran.work*, Berlin, Germany.

- Freelance software developer specialized in Android, iOS and Flutter.
- Available both for remote and on-site (Berlin) work.

Technologies and Programming Languages

- Native Android development with Kotlin and Java.
- Multiplatform (hybird) mobile development with Flutter.
- Native iOS development with Swift.

Freelance Work / Clients

- Independent Author at Pluralsight.com:
Creating video course for Navigation Architecture Component on Android.
- iOS web-view app for CupidMedia.com:
Implemented web-view based app for CupidMedia.com on iOS.
- Android live trivia game for sventertainment.se:
Kotlin Android app for a daily live trivia show in Sweden and Denmark.

from 05/2016 **Lead Android Developer**, *Good Hood GmbH (Nebenan.de)*, Berlin, Germany.

- to 11/2018
- Development of the Android app for Nebenan.de from scratch.
 - Team leadership and principal engineer for Android.
 - Download: <https://play.google.com/store/apps/details?id=de.nebenan.app>

Technologies and Programming Languages

- Kotlin and Java.
- RxJava, Dagger (later Koin) and Architecture Components (Room, ViewModel, LiveData).
- Unit tests and instrumentation tests using Mockito and Espresso.
- Firebase Analythics, Notifications (FCM), Remote Config.
- Facebook SDK integration for Login.
- Machine Learning applied to Natural Language Processing.

Accomplishments

- First Android developer, built the app from scratch and set the architecture.
- App has 500k downloads and 4.2 stars.
- Refactored entire app from using Realm to use Room.
- Reduced app size from 33 to 15 MB.
- Migrated CI from BuddyBuild to Jenkins.

from 03/2012 **Technical Team Lead and Software Developer**, *castLabs GmbH*, Berlin, Germany, to 12/2015

- Technical Lead for the Mobile Video Player SDK.
- Development of multiplatform software in Java, Obj-C and C++ for Android and iOS.
- Hiring and leadership of a team of six developers, Scrum Master role and product management.

Technologies and Programming Languages

- Development of Android (Java) media player library (SDK).
- Development of Android (Java) applications.
- Native C++ development on Android (JNI) and iOS.
- iOS library development in Objective-C.

Accomplishments

- Promoted to Technical Team Lead and built my own team.
- SDK used by top media player apps like VUDU (5.000.000 Downloads).
- Delivered SDKs to large customers like: Intel, Wall-Mart (VUDU), HBO, DTS, Mubi, Stan.com.au, Primetime among others.
- SDK featured as 2015 finalist of the Streaming Media European Readers' Choice Awards
